

Material Handler

OPEN POSITION

Plastikos, Inc., North America's premier supplier of precision injection molded custom electronic and medical components, is searching for someone to fill a complex role of Material Handler. The successful candidate must be able to perform with accuracy in a fast-paced and quickly-changing environment.

A successful candidate must be passionate about product quality, continual improvement and growth, and possess a track record of success.

KEY RESPONSIBILITIES

- » Accurately mixes material colorant and/or re-pelletized material, and dries (if necessary) material
- » for upcoming production runs
- » Fills dryers with proper material per schedule requirements
- » Collects runners, regrinds and purges from production floor
- » Determines material changes from schedule and accommodates schedule updates and changes
- » Properly cleans loaders, dryers, grinders, material lines and hoppers
- » Accurately weighs, labels and scans materials to proper warehouse location after production runs
- » Prints material labels
- » Properly and safely operates pelletizer
- » Assists Quality Department personnel in preparing packaging for production parts
- » Safely performs duties related to forklift operation and scissor lift operation

QUALIFICATIONS

- » Previous experience in fast-paced, tight-tolerance injection molding environment
- » Works well independently (i.e. well motivated), as well as in a team environment
- » Possesses a strong attention to detail
- » Is very conscientious of material inventory
- » Is capable of multitasking
- » Possesses basic math skills
- » Displays proficiency in safe operation of forklifts
- » Is willing to work on any of the shifts, as required (including overtime coverage)

Comprehensive compensation package includes insurance benefits, 401k, flex plan, life insurance, bonus program and off-shift premium.

A printable PDF version of our application form is available online for candidates to print, fill out and bring to Plastikos, Inc.
