

Greetings!

This year, Micro Mold & Plastikos will be introducing a four-part series of *Successful Molding Guidelines*. Our goal is to help you navigate through various fundamentals that attributes to manufacturing a successful plastic part, which include:

- Part 1: Material Identification & Selection
- Part 2: Mold Design & Fabrication Strategies
- Part 3: Plastic Part Design Principles
- Part 4: Plastic Processing Techniques

Click [HERE](#) to download Material Guideline.

Technology & Business Developments

Plastikos' automation investment yields medical contract

Enteral nutrition is an essential part of a patient's needs whenever medication or nutrients cannot be ingested by conventional methods. Plastikos & Micro Mold recently teamed up with a leading Healthcare provider to develop an innovative new device to administer a patient's nutritional needs.
